CONFIDENCE Dissemination workshop

2-5 December 2019, Bratislava, Slovak Republic

The CONFIDENCE Project, funded under the H2020 CONCERT project, is performing research focused on uncertainties in the area of emergency management and long-term rehabilitation. It concentrates on the early and transition phases of an emergency, but considers also longer-term decisions made during these phases. The project brings together expertise from four European Radiation Protection Research Platforms (NERIS, MELODI, ALLIANCE and EURADOS) and also from Social Sciences and Humanities.

Actors in emergency and recovery preparedness and management from all levels and sectors are encouraged to participate in this workshop.

The main objectives will be:

- to disseminate the knowledge acquired and to demonstrate the capability of the developed models, methods, approaches, guides, recommendations and tools.
- to collect feedback from end users on our outputs and remaining research requirements or improvements in models/guides etc. as a feedback to the Platforms to further develop their Strategic Research Agendas.

Please consult the NERIS web page for agenda, registration and accommodation

www.eu-neris.net

The workshop participation is free of charge.

The workshop language will be English.
